PCS250 Addendum

The following information has not been included in the PCS250 Reference and Installation manual.

If the PCS250 V4.10.011 and higher is not used in conjunction with the SWAN Server, the polling will need to be disabled by sending the corresponding SMS command below to the PCS250.

Command	Description
P[password].---S	Disable SWAN polling
P[password].+++S	Enable SWAN polling
